

CAPTURE

AUTHORING TOOL

It can be cumbersome for professionals to access and assemble multiple pieces of a presentation for self-study. But continuing education training events and archives of past training materials are assets that can and should be redeployed to extend their reach and enhance their value within your firm.

LearnLive **Capture™** is the most secure and simple way to convert your proprietary past, current, and future training and continuing education programs into fully certified, online training courses that can be accessed on demand for future training.

Administrators can easily upload all legacy training content that currently exists in any form: DVD, VHS, PowerPoint presentations, handouts, etc. **Capture** puts all the pieces together into a one-click, easy-to-follow presentation. When students complete the training, detailed reports are sent to managers and administrators. **Capture** even provides IT trainers with an easy-to-use authoring tool for application training.

Professionals and staff can seamlessly and instantly access the converted courses on their schedule, 24/7 from anywhere in the world right from their desktops. **Capture** recreates the original event so the presentation is engaging and easy to follow. Participation is automatically tracked and continuing education certificates are issued for immediate printing.

LearnLive **Capture** will seamlessly and securely integrate into your existing learning portal LMS or intranet. Alternatively, LearnLive can create a customized, co-branded online university for your professionals and clients.

Created jointly with the LearnLive Accounting Advisory Board (LAAB), **Capture** is part of the LearnLive **Continuum™** family of products.

EASY TO CONVERT

- For legacy content, you can easily upload any handouts or PowerPoint presentations that accompany the video presentation. Capture will assemble all the pieces to recreate a live event.
- For current and future training, simply connect your video camera to a computer and Capture will automatically convert the recording to an online self study.
- Easy options to synchronize the presentation to your liking.

EASY TO USE

- Audio and video synchronized to the PowerPoint presentation makes for an engaging, easy-to-follow presentation.
- Lesson menu with drop-down details for navigation.
- Note-taking.
- Printable handouts.
- Glossary of terms for user reference.
- Ask a question for expert response.
- Testing/quizzing options available.
- Authoring tool provides easy to create IT application tutorials.
- Exit and Save.
- Download MP3/MP4 for iPod® connection.

STATE-OF THE-ART PARTICIPATION TRACKING & REPORTING

- Ensures all state regulations are met for certification.
- Built-in participation tracker pops up throughout the self-study (4 times per hour) to ensure active participation.
- Automatic participation report is run at the end of each event.
- Participants are given a pass or fail depending on the participation requirements you set.
- If passed, continuing education certificates are issued for immediate printing.
- AICC and SCORM compliant.
- Fully integrated with **Compass™** (LMS) for automatic record updates

ABOUT LEARNLIVE

LearnLive, now part of Thomson Reuters, is a fully hosted solution, reducing the complexity and costs of software set-up and integration with your network. All software systems are kept up to date, available, and managed for performance by LearnLive experts. With a hosted solution, you can ensure scalability and security of internal IT systems without driving up internal IT costs, which can free up your IT staff and tools to focus on strategic technology projects that impact your firm's bottom line.

LearnLive Technologies provides a comprehensive learning platform focused on meeting the specific professional development, career planning, and compliance tracking needs of professional services firms. The integrated learning platform, used by many of the top 100 accounting firms and NLJ 250, includes a Learning Management System, certified delivery platform, class conversion tools, and compliance tracking modules. For a free demo, contact us today at 1-206-812-4700 or sales@learnlive.com.

NEWLY INTEGRATED WITH CHECKPOINT LEARNING

In addition to managing self-study and recorded content with LearnLive Capture, organizations can also integrate LearnLive Capture programs with Checkpoint Learning. You can link the LearnLive Capture Program ID to the Checkpoint Learning course activity to transfer the recorded program information directly to the University in Checkpoint Learning. Now professionals can access any LearnLive Capture program from within Checkpoint Learning, and upon completion of the course, the results are deposited directly into the Checkpoint Learning activity history and CPE Status Reports for the professional. Certificates are also generated in Checkpoint Learning for record keeping. The LearnLive Capture programs can integrate with Checkpoint Learning to provide seamless pass-through of the learner from one platform to another, and completion results are moved back into Checkpoint Learning without administrative effort.

Course 1588: Accounting Basics & Principles Spring 2010

Edwards & co. LLP
